Please make note of which classes you registered for because there are varying start times, rooms, requirements and included meals.

## HANDS-ON NEW WAY TO USE RESTFUL APIS IN DATAFLEX

---

**Date: Saturday, March 16<sup>th</sup> | Full Day, 9:00am – 5:00pm**

Instructors: Harm Wibier & Mike Peat

Meals: Continental breakfast & lunch

Room: Arena Ballroom, 1<sup>st</sup> floor

Requirements:

Please have the following installed and working on your laptop:

- A recent version of DataFlex 19.1 (RC1 or Beta 2, download at <http://www.dataaccess.eu/dataflexprerelease/>)
- A copy of the Postman API (<https://www.getpostman.com/downloads/>)
- An up-to-date copy of the Firefox web browser (<https://www.mozilla.org/en-US/firefox/new/>)

## ACCESSING MICROSOFT OFFICE VIA COM IN DATAFLEX

---

**Date: Saturday, March 16<sup>th</sup> | Half Day – Morning, 8:00am – 12:00pm**

Instructors: Vincent Oorsprong

Meal: Continental breakfast

Room: Ballpark Ballroom, 1<sup>st</sup> floor

Requirements:

Please have the following installed: DataFlex Studio and Microsoft Office products Word and Outlook (on the local machine)

## TAKING DATAFLEX SQL APPLICATIONS TO THE NEXT LEVEL

---

**Date: Saturday, March 16<sup>th</sup> | Half Day – Afternoon, 1:00pm – 5:00pm**

Instructors: Stephen W. Meeley & Bob Cergol

Meal: Lunch

Room: Ballpark Ballroom, 1<sup>st</sup> floor

Requirements:

Please have the following installed: DataFlex 19.1 RC1 Studio and Microsoft SQL Server 2014 (or higher).

## IMPLEMENTING HISTORY MANAGEMENT AND DEEP LINKING

---

**Date: Sunday, March 17<sup>h</sup> | Half Day – Morning, 8:00am – 12:00pm**

Instructors: John van Houten

Meal: Breakfast

Room: Arena Ballroom, 1<sup>st</sup> floor

Requirements:

Please have the following installed and running: DataFlex 19.1 Release Candidate (or latest DF 19.1 build), and IIS must be installed and configured correctly to run all DataFlex 19.1 sample web applications.

Load Web Order and Web Order Mobile workspaces, and compile and test run each of these.

Please install and set up your environment with enough time to test that it is working correctly and resolve any problems. It is suggested that you run the DataFlex WebApp Check utility to ensure that your computer is correctly configured to run DataFlex Web Applications. Note: it is not necessary to have IIS ASP Classic installed. The course will not need this.

## YOU'VE FINISHED YOUR DATAFLEX WEB APP - NOW WHAT?

---

**Date: Sunday, March 17<sup>th</sup> | Half Day – Afternoon, 1:00pm – 5:00pm**

Instructors: Stephen W. Meeley

Meal: Lunch

Room: Arena Ballroom, 1<sup>st</sup> floor

Requirements:

Please have the following installed: DataFlex 19.1 RC1 Studio and Microsoft SQL Server 2014 (or higher).
